MAC
METAL ARCHITECTURAL

MS 1
Anthracite &
Smoky Quartz

For more than 25 years, we have been offering customers top-of-the-line steel sidings designed and manufactured in Canada.

Constantly pursuing innovation, MAC is constantly seeking to innovate and offer products with unique, rich colors that will add a touch of style and sophistication to your projects

Our promise is to offer durable, high-quality products that will embellish and protect your home and its outer envelope. All of this with an exceptional 40-year warranty, our products bring you peace of mind for years to come.

At MAC, we do not compromise on quality and aesthetics. We strive to offer you products that respond to trends in architecture, they will be the perfect complement to make your property the dream home you had always imagined.

In addition to bolstering the look and value of your home by 6 to 8 %, **MAC products require no maintenance** and provide genuine beauty that will stand the test of time.

Come discover our unique styles.

LET YOURSELF BE INSPIRED!

MAC siding is made in Canada from 100% recyclable materials and can help your project get **LEED certification**, by granting points based on the program's set criteria.

The look and richness of wood WITHOUT MAINTENANCE

With busy schedules, time can often be lacking to take care of the maintenance of a home. Once installed, MAC steel sidings retain their original appearance. Not only will you no longer have to worry about it, but your home will also benefit from the durability of the strength of steel.

Each shade of the Wood Collection offers 6 different planks with different grain and nuances, all designed to make the final result as natural as possible. Our goal is to create products with a contemporary design and color that blends in perfectly with the surrounding environment.

REASONS TO CHOOSE MAC

1 RESISTANT PAINT

With Textural III & IV, MAC offers its customers a difference that is noticeable. This unique painting process offers superior protection from extreme weather conditions and scratches.

2 40 YEAR WARRANTY

Because we use a higher steel grade and a unique paint process to ensure its longevity and robustness, MAC offers all customers a 40-year Quietness Guarantee. Perfect against the distinctive weather conditions in our country.

3 A PLUS FOR YOUR PROPERTY

With their transferable warranty, MAC steel coatings offer a double value to your property. In addition to significant savings in installation costs, MAC sidings owners can increase the value of their homes to almost 10% of their original value.

4 AN ECOLOGICAL PRODUCT

MAC steel sidings are among the building products of the new millennium. In addition to containing a high percentage of recycled materials, MAC products produce low levels of toxic fumes and are 100% recyclable at the end of their long life.

5 MAINTENANCE FREE

MAC steel siding retain their original appearance and are completely maintenance free. Once installed, not only will you no longer have to worry about it, but your home will benefit from the permanence of the steel.

6 INCREASED RESISTANCE TO RUST

MAC Prepainted Galvanized Steel products and their Textural pre-paint systems provide increased resistance to rust, which is your best protection against Mother Nature's worst aggressions.

7 SUPERIOR PRODUCT

Product performance and customer satisfaction are at the heart of our concerns, MAC never skimps on quality. That's why we offer quality profiles that stand out!

8 PERFECT FINISH

As MAC is the leader in un-exposed screw profiles, you will benefit from our high-end products that provide a prestigious appearance to the buildings that they cover.

HARRYWOOD BLOCK

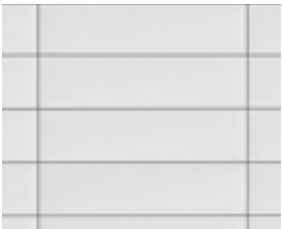

Metallic Grey

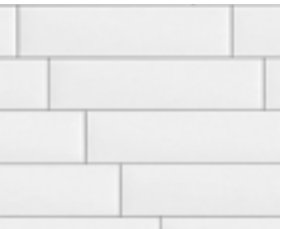

For a unique touch!

The sleek lines accentuated by transverse grooves of the Harrywood Block give it a modern look that stands out. The appearance of the profile once installed recalls the slender blocks of the ceramic, coupled with the strength of the steel.

The Harrywood Block offers almost unlimited installation customization options, either in upset joint, breaking bond joint or aligned joint. In addition they can be easily installed vertically, horizontally and even diagonally.

STEEL AN ECOLOGICAL CHOICE!

At the center of all trends and innovations, ecology and sustainable development are movements corresponding to the future of construction and renovation. As the years go by, the more environmental standards become important for eco-responsible actions on the part of companies. At MAC Metal Architectural, we do not take this situation lightly and do everything possible to surpass ourselves in this area which we hold dear. How? By providing products made from recycled material for your homes! Indeed, MAC steel generates few toxic fumes and is recyclable at the end of its long life.

MS 1 MODULAR

Titanium Black

Beauty in flatness!

The MS 1 Modular offers you a world of design possibilities. The slender lines and large flat surfaces that characterize this profile with multiple widths will inevitably add a unique cachet to the projects on which it is used. Without visible screws, this triangular pinch-shaped profile will inevitably create a distinct size effect.

CHARACTERISTICS

- Maintenance free
- 40 year warranty
- No visible joints for a clean and modern style
- Triangular pinch stick

MS 380

Smoky Birch / Dark Brown

A touch of dynamism!

The smooth corrugation of the Corrugated MS 380 makes it a perfect modern solution. Compared to conventional corrugated panels, which generally offer a more industrial look, the lightweight 3/8-inch ripple of the MS 380 makes it much more versatile. Flexible over the length, it even allows some malleability for a curved installation.

In insertion or to create an interesting architectural detail, this siding allows a gentle sinuosity adding dynamism and rhythm to the building.

TEXTURAL SYSTEM

2x more resistant to UV rays
3x more resistant to micro-cracking and fissures,
especially in sharp-angle shapes.

MAC Metal's steel profiles are carefully crafted with premium grade steel and are equipped with Textural paint technology, which is unique to MAC Metal.

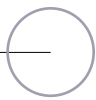

This European-inspired technology, made of polyurethane, has proved its worth for years on various types of rolling stock such as trains and trucks, which are constantly exposed to poor weather and harsh environments. The steel profiles designed based on Textural technology are available in a range of opaque colors with a matte surface finish that absorbs reflections and mitigates the impression of warping. They produce in-depth color and texture effects that mimics noble materials like wood, zinc and bronze.

A HIGH-PERFORMANCE PROCESS
EXCLUSIVELY FROM MAC METAL ARCHITECTURAL

- Resistant to scratching
- Resistant to corrosion and fading
- Superior protection against bad weather
- Excellent film integrity

NOTE THAT THE COMPLETE RANGE OF COLORS (PERSPECTRA PLUS AND SEVERAL OTHERS) ARE AVAILABLE UPON REQUEST. Contact your representative for availability and delivery times.
