QUALITY, INNOVATION & SERVICE

The VERSA-LOK Midwest team is dedicated to quality, innovation and service. VERSA-LOK Midwest is a supplier of landscape/hardscape, erosion control and utility products and accessories for residential, commercial and public works construction. Our local plants in Kimball and Faribault, Minnesota, along with our partnered manufacturers in the Upper Midwest, are staffed with skilled experienced professionals who adhere to the highest quality standards. Using state-of-the-art equipment and durable aggregates, our team continually develops new products and processes for superior solutions.

INNOVATION

QUALITY CONTROL

Recent innovations include expanded dry cast and precast capabilities, along with new products, textures and colors. Our Infusion™ technology process enhances the appearance and performance of Willow Creek Select Series™ pavers. Infusion technology also extends the life of a paver's bright, vibrant "new paver" look, improves stain resistance and reduces absorption, making the paver more durable. The best combination of aggregates, cement, color pigments, compaction and curing times results in products that are versatile, beautiful and durable in even the toughest Midwest conditions.

TRANSFORM YOUR OUTDOOR LIVING SPACE

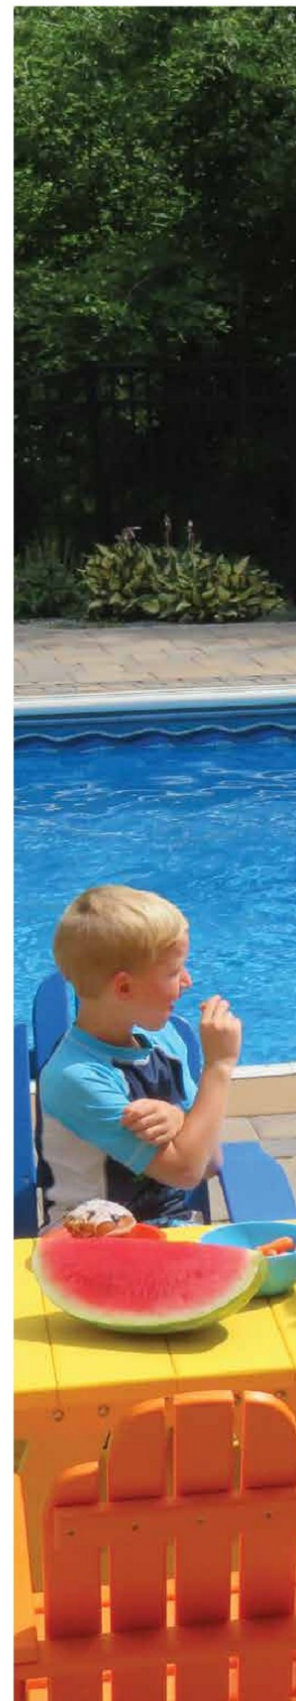

Imagine transforming your outdoor spaces into places of beauty and comfort with hardscaping products from VERSA-LOK Midwest. Whether you prefer a classic or contemporary appearance to match an existing landscape or want to create a fresh new look, VERSA-LOK Midwest has the right products and solutions for outdoor living.

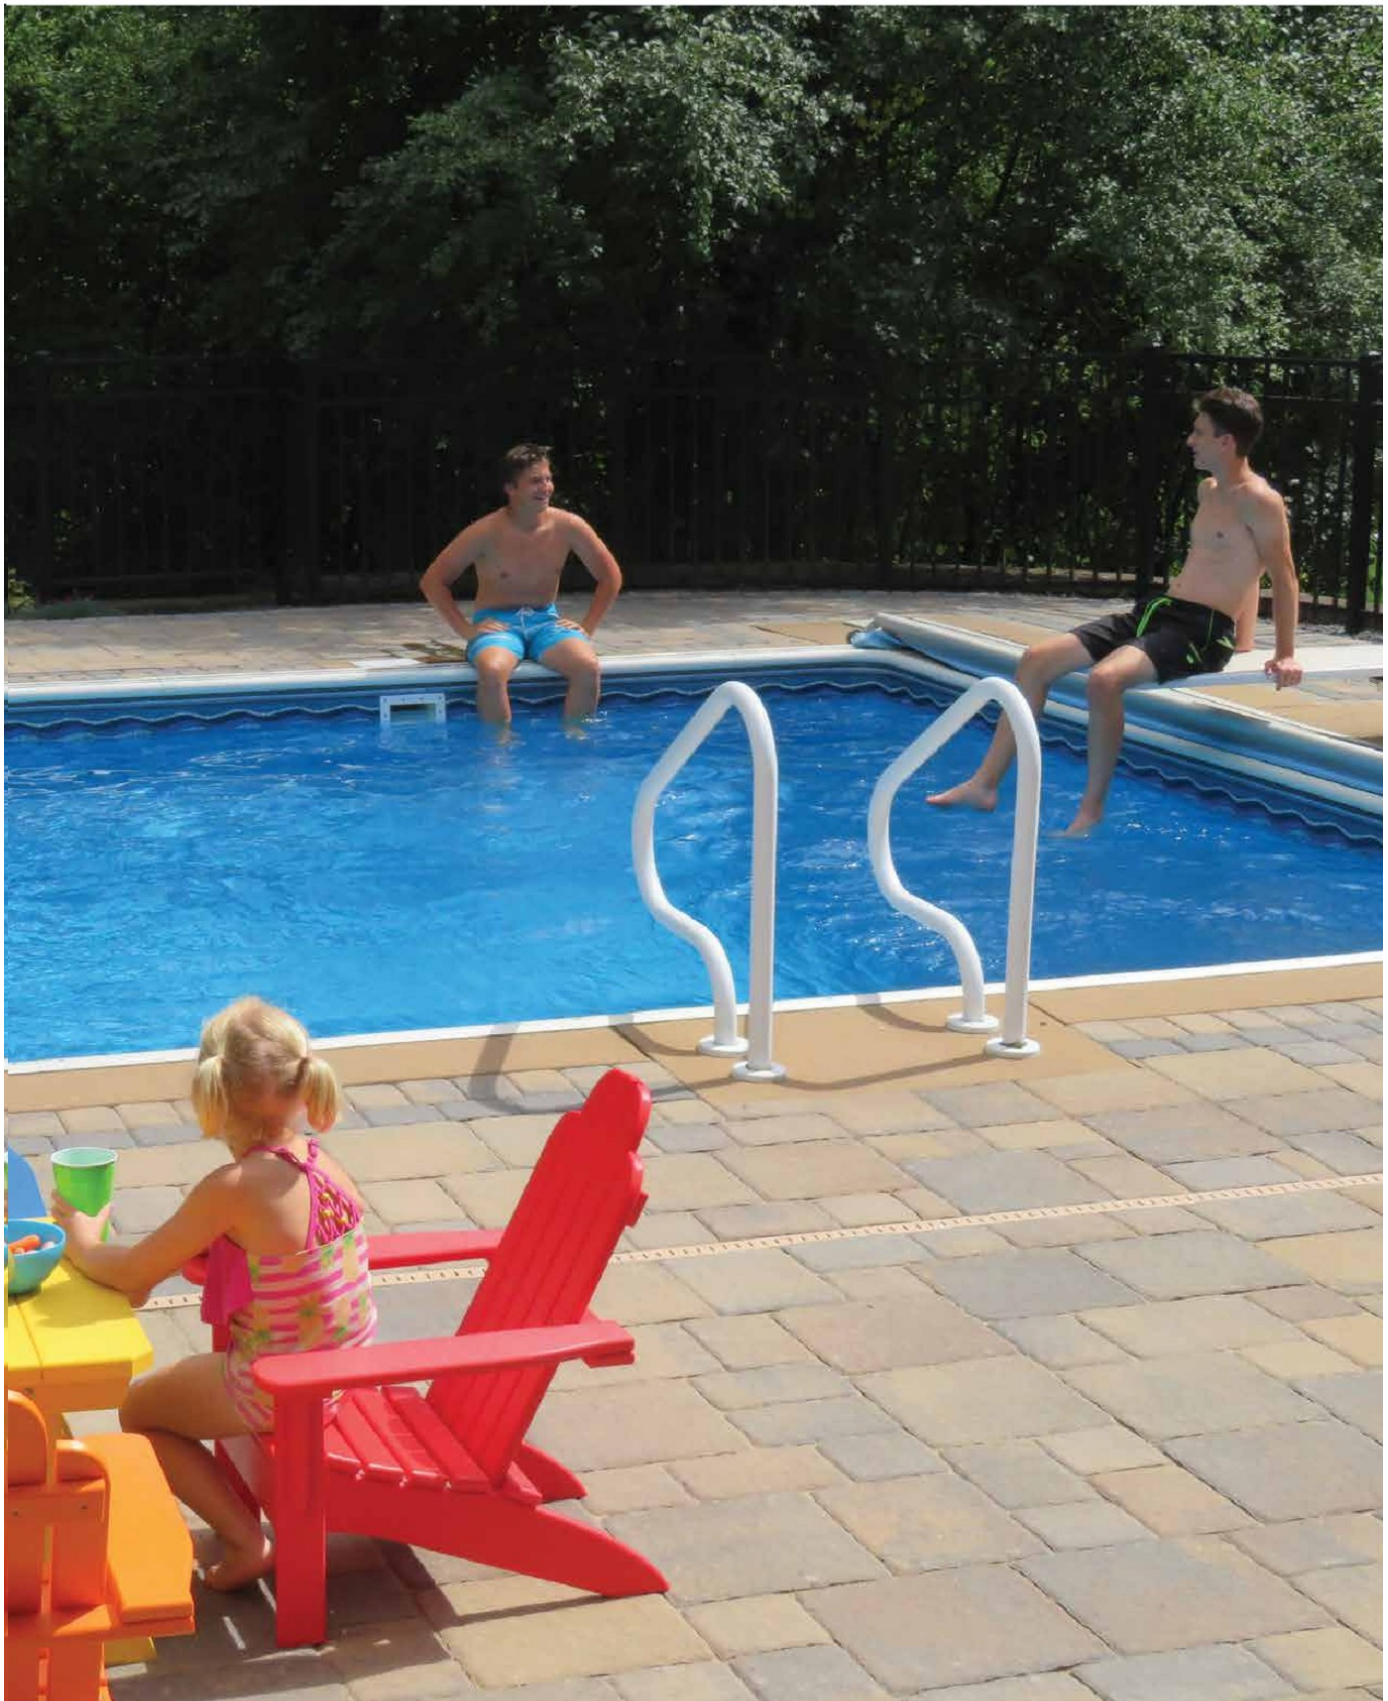

VERSA-LOK® retaining wall systems are renowned among landscape architects, specifiers and contractors for ease of installation and design flexibility.

Willow Creek™ paving stones include an impressive palette of shapes, colors and styles that are suitable for traditional and permeable installations. The ability to offer matching retaining wall systems and paver colors is a distinct advantage.
